† Original notice of the question was received in Hindi.

(b) The un-audited figures for the half year ending 30-9-2003 shows an approximate profit of more than Rs.2000 crores which is an improvement.

(c) and (d) In view of (b) above there is improvement in profit during the current year. However the fall in profit in 2002-03 was occasioned by very high provisioning in salary expenses for absorption of Group 'B' officers and creation of other salary and leave related liabilities. Such provisioning along with deferred tax liability become mandatory as per Accounting Standards. Additional depreciation has also been impacting profit. It may be pointed out that due to fast decline in Tariff an increase in costs, it is difficult to achieve the same level of profit of Rs. 6312 crores attained in the year 2001-02.
